

## PROPOSED TEXT RELATING TO COMPLIANCE WITH INSTALLATIONS

It is recalled that each owner-landlord must inform his personal insurer in the context of a rental of his house or apartment, in order to cover his seasonal rental business.

In addition, for each rental, the owner must ask each tenant for a copy of his "civil liability" insurance for damage that a tenant may incur.

For any degradation on the common areas of the domain, only the owner of the renter will be held responsible and must in this way inform his insurer of the damages that will be invoiced to him.
